RE: Response to Comments, Draft-Final Resource Conservation and Recovery Act Facility Investigation (RFI) Addendum, SWMUs 8, 9, 11, and 51, Naval Station Mayport, Facility ID# 16-8626008, USEPA ID #FL9 170 024 260, Mayport, Florida (Tetra Tech, June 8, 2012)

Dear Mr. Syme:

I have reviewed the subject document which was dated June 8, 2012 and was received on June 8, 2012. This report was prepared under Contract Task Order Number 0033. The letter report states *"Tetra Tech is pleased to submit this letter responding to the comments on the RFI Addendum for SWMUs 8, 9, 11 and 51 in a letter dated September 19, 2011, from Mr. John Winters of the Florida Department of Environmental Protection (FDEP)."*

Mr. John Winters' Comment 1 from the RFI Addendum (July 2011): "...I believe there are several data gaps in the soil boring exceedances in the north, northeast, and southwest directions at the site. Additional soil analytical data is needed to accurately draw the Residential SCTL line."

Tetra Tech's Response to Comment 1: 1) In the March 2012 NAVSTA Partnering Meeting the team discussed and approved addressing the data gaps with limited additional soil sampling. The information gathered from this effort will be reported in the Corrective Measures Study (CMS). Data gaps will be filled and the soil contamination delineated prior to completing the CMS. Additionally the team agreed that the RFI Addendum can be issued final as is, 2) Additionally, the certification page was omitted from the draft-final version of the RFI Addendum for SWMUs 8, 9, 11, and 51 and will be included in the final version of the document, and 3) Although not a

comment from others, Tetra Tech has included a Professional Engineer Certification page for this document.

My reply to the Tetra Tech response to comment is that it is satisfactory. Please complete and send me the Final RFI Addendum for these SWMUs at your earliest convenience.

Thank you for the opportunity to review this document. If you require additional clarification or other assistance, please feel free to contact me at 850/245-8999.

Sincerely,

John Winters, P.G.
